Executive Summary

Visionary PMO & Portfolio Leader with 25+ years of IT experience and over a decade of enterprise transformation. Expert in building data- and AI-driven PMOs, aligning portfolios with business strategy, and integrating GRC frameworks to deliver measurable ROI, reduce risk, and accelerate value. Trusted advisor to CXOs, known for turning traditional PMOs into strategic enablers through insights-driven governance and people-first leadership.

Key Leadership Highlights:

- **Delivered 20% ROI by architecting an AI-powered PMO** with real-time performance dashboards aligned to enterprise vision.
- **Reduced compliance risk by 20% through GRC integration** using ISO 27001, COBIT, and GDPR frameworks.
- **Improved billable utilization by 20%** via predictive resource planning and utilization optimization.
- Collaborated closely with executive leadership to strategically align portfolio execution with **organisational objectives, driving measurable business outcomes.**
- **Achieved 15% cost savings by streamlining operations** without compromising delivery quality or stakeholder experience.
- **Oversaw 20+ programs across multi-client and product portfolios** with significant cumulative value, ensuring benefits realization and proactive risk governance.
- Transformed the PMO from a cost centre into a **Strategic Value Office, improving portfolio ROI, predictability, and executive decision** visibility.
- Mentored and **trained 100+ professionals** across Portfolio Management (PfMP), Project Management (PMP), and Agile Scrum Master (CSM) certifications, fostering high-performance delivery and execution excellence.
- Secured **1st Rank in CRISC (Enterprise Risk Management) Certification**; awarded **medal and cash prize by ISACA Chennai President at the 2025 Chennai Conference.**
